

PROJECT SCOPE STATEMENT

Project Name

Recycle Smart

Project Deliverables

[High-level deliverable from the WBS is listed here.]

[Work package listed here.]

Function to search waste material.

[Describe this work package in as much detail as possible.]

This work package will let the user search a waste material and receive information about how to dispose waste. Information will be pulled from the Waste Wizard API.

[Work package listed here.]

Function where the waste material can be disposed.

[Describe this work package in as much detail as possible.]

This work package will work in tandem with the search function where the user will receive information about disposing centres locally.

[High-level deliverable from the WBS is listed here.]

[Work package listed here.]

Scanning recyclable symbol on plastic recyclables.

[Describe this work package in as much detail as possible.]

This work package will allow the user to interactively learn by having hands on experience. This will work with Adobe Aero to augment the information onto the screen when user successfully captures the recyclable symbol via smart phone.

[Work package listed here.]

General information page.

[Describe this work package in as much detail as possible.]

This work package will hold general information about sustainability and the benefits of recycling. This will act as another educational page.

Project Exclusions

[Indicate anything that will not be included in the scope of the project.]
